

Fieldnote Reports

PROBLEM

Visit observations arrive as scattered notes or recordings.

DEMONSTRATED WORKFLOW

Upload fictional speech, generate source-linked sections, add a follow-up and export a reviewed PDF.

ENGINEERING DEMONSTRATED

Editable sections, source-note inspection and unresolved-information checks.

MEASURED SYNTHETIC EVIDENCE

24/24 cases completed. all expected facts found: 24/24; no prohibited phrase: 24/24; source references valid: 24/24.

PILOT SCOPE

A voice-to-report workflow with human review. A scoped pilot would agree on: Approved report template, source languages, omissions policy and reviewer acceptance criteria. The pilot deliverables are an agreed dataset, working workflow, review interface, measured acceptance report and handover. Production access control, external integrations and deployment are scoped explicitly for the intended environment.
